

The Highest Quality Delivered On-Time, Every Time!

Industrial Replacement Parts

Our components can be found in expellers, expanders, injection molding machines, galvanizing lines, pumps, elevators, hammer mills, heat treat ovens, housings, frames, ice crushing machines and many other types of process equipment.

Company

Over 30 years of manufacturing and certified as ISO 9001:2008 & AS9100-C. Fully integrated engineering, foundry, traditional machine shop and highly advanced CNC manufacturing facility operates **24/7/365**.

OEM Parts

We specialize in cobalt and nickel based alloys - valve trim parts (seats, balls, stems, stem balls, plugs, cages, thrust bearings, body liners, etc.), pump casing rings, rotating equipment and/or heavy wear parts.

From **Small** to **Large**
and/or **Simple** to
Complicated parts,
we can make it!
