

Geronimo Alloys, LLC. is an ISO 9001 & AS9100-C certified industrial manufacturing company that has been in business since 1984. For over 30 years, we have established a reputation for high-quality manufacturing, quick delivery and responsive customer service.

We specialize in manufacturing components, from a variety of cobalt, nickel based, and stainless alloys, for equipment use in “Extreme” conditions such as high temperatures, abrasion, erosion, corrosion, vibration, tension, pressure and compression. Being fully integrated (design/engineer, cast, pour, machine – traditional/CNC products, QC, etc.) at our State of the Art In-House Foundry and finish machining shop, allows us to provide superior products in an expedited manner.

By stocking a variety of different types of alloys (cobalt, nickel, stainless, 300 & 400 series, PH and duplex) plus alternative, yet equivalent, to trademarked materials (Stellite®, Monel®, Inconel®, Tribaloy®, Nitronic®, Incoloy®, Ferralium®, Hastelloy® and Colmonoy® Alloys), we can manufacture the highest quality components at reduced costs.

Through the years, Geronimo has become one of the most trusted providers/partners of various OEM replacement wear parts for the OEM, distributor and/or end user and would welcome the opportunity to work with you.

(Stellite®, Monel®, Inconel®, Tribaloy®, Nitronic®, Incoloy®, Ferralium®, Hastelloy® and Colmonoy® are registered trademarks of their respective companies... Geronimo Alloys casts the ASTM Equivalent to these trademarked Alloys.)

In-House Capabilities:

- **Foundry** – 5 Cupolas
- **3-D Modeling:** Machine Drawing
- **Pattern Manufacturing**
- **Casting** - Sand Casting & Centrifugal
- **CNC Machining** - Lathes, Mills, Sinker & Wire EDM
- **Manual Machining** - Lathes, Mills, Drills and Grinding
- **Broaching**
- **Welding** – Qualified, Hard-surfacing, Overlay, Robotic PTA & DLD – Direct Laser Deposit
- **Heat Treating** – Batch furnace and induction
- **Induction Hardening**
- **Induction Brazing**
- **Pressure Testing** – up to 50K psi
- **Tensile Testing** – Physical Certifications
- **Spectrograph Material Identification** – Chemical Certifications

The Highest Quality Delivered On-Time, Every Time!

Replacement Part Applications:

Ball & Gate Valves
-
Blown Film / Plastic Extrusion Machinery

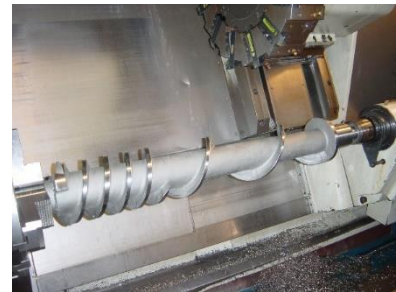

-
Screw Press / Expeller
-
Expander-Dryer

-
Injection Molding Equipment

-
Oil & Gas Equipment

-
Refinery / Chemical Processing Equipment

-
Heat Exchanger Components

-
Power Generation

-
Steel Galvanizing Equipment

-
Aerospace / Aviation

-
Crushing / Pulverizing Machines

Ice, Aggregate, Coal, Rock, Wood, Plastic, Rubber, etc.

-
Pumps / Compressors

-
Marine / Seawater Applications

-
Furnace / Heat Treating Equipment

-
Food Processing Equipment

-
Elevators

-
Hammermills
