

### COMPANY OVERVIEW

We are an industrial manufacturing company that designs, engineers, casts and machines O.E.M. replacement/wear parts as well as unique specialty parts in our foundry and machine shop for the industrial market.

### OUR MISSION

To manufacture the highest quality parts from cobalt based alloys, nickel based alloys, stainless steel, duplex and the like, on time, every time!

### OUR HISTORY & VALUES

Over 34 years of manufacturing the highest quality alloy components & parts with skilled craftsmen and responsive customer service.

### IN-HOUSE CAPABILITIES

- **Foundry:** 5 furnaces
- **Design:** 3-D, Machine, Drawing
- **Patterns:** Design & Build
- **Casting:** Sand & Centrifugal
- **CNC Machining:** Lathes, Mills, EDM
- **Manual Machining**
- **Welding:** Qualified, Overlay, Robotic PTA
- **Broaching**
- **Heat Treating:** Batch furnace & Induction
- **Testing:** Pressure, Tensile, Hardness

### TRUSTED BY CUSTOMERS

- Polymer Industry
- Plastics Industry
- Chemical Industry
- Valve Industry
- Oil & Gas Industry
- Rubber Industry
- Steel Manufacturing Industry
- Machining Industry
- Aerospace/Aviation Industry
- Feed Mill Industry
- Power Generation Industry

### REPLACEMENT PART APPLICATIONS

- Ball & Gate Valves
- Plastic Extrusion Machinery
- Screw Press/Expeller
- Expander-Dryer
- O&G Components/Parts
- Chemical Processing Equipment
- Power Generation
- Steel Galvanizing Equipment
- Aerospace/Aviation
- Food Processing Equipment
- Hammer mills
